HAWAII AND CANADA MAY BE TAKEN IN

Atleged Evidence that Mr. Cleveland is Not Unfavorable to the Union of the Sandwich Islands With the United States Some Opinions.

CHICAGO, Ill., March 6.—[Special Telegram to THE BEE.]—A Washington speial says: The representatives of the Hawaiian provisional government will, at the earliest favorable moment, call he attention of the administration to the pending treaty of annexation. They do not expect that the treaty will be withdrawn. Of course, Mr. Cleveland may withdraw it from the senate as he withdrew the reciprocity trenties with South American states which President Arthur had negotiated when he entered ipon his office eight years ago.

One of the Hawaiian commissioners said yesterday, however, that he did not anticipate such action. The fact that the treaty was not considered owing to democratic opposition in the senate was not to be interpreted, in his opinion, as indicating that the democratic party would oppose annexation as a policy. simply meant that it desired more time to consider it, and that the democrats preferred to have the islands annexed, if they are to be annexed at all, under a democratic rather than a republican administration. Moreover, some reasons for thinking that President Cleveland is disposed to have a commission sent to the islands to make a thorough investigation and report the condition of affairs before a final decision shall be reached as to the policy the present administration will recommend. The arrival of Princess Kaiulani, the so-called heiress-apparent to the throne of Hawaii, is not likely to have any marked effect or influence here. guardian of the young princess, Mr. Davies, said one of the Hawalian commission, is "an English fanatic," who seems to be very much elevated by the fact that he has as a ward a princess of the Sandwich islands. The commissioner had called upon him in New York and found him exceedingly supercilious and arrogant in manner. He undoubtedly has made a grave mistake in the interests of his ward in coming here to America, especially in exhibiting his of-fensive British manners. He has given emphasis to the fact that those who are opposing annexation are acting in Britsh interest.

Recent statements made here by the fireet representative of the deposed queen, Mr. Neuman, would seem to indicate that he will not make a very earnest effort in her interests. He was asked whether or not the queen expected a restoration, and he answered most emphatically that he expected the islands could pass sooner or later into the hands of the United States. It is evident that his object here is to secure the est terms possible with this country.

The views of Mr. Cleveland himself have not been expressed on the subject of Hawaii, neither since he was president nor before. The representatives of the Hawaiian government, however, point to a mere passage in his message in 1889, as indicating that he believes the ultimate destiny of Hawaii is to be a part of

the United States.
Some of those who are in the immediate surroundings of Mr. Cleveland, notably Don M. Dickinson, are carnestly talking in favor of annexation. Mr. Dickinson, who by reason of his residence near the border in Detroit,

has become very much interested in

Cananian matters, has expressed the be inaugurated which will inevitably result in the annexation of Canada. thusiastic annexationist and there are many eminent democrats who will not to call the attention of Mr. Cleveland to the fact that all the annexations of territory which have ever been made to the United States, except that which resulted from the purchase of Alaska, have been accomplished under demo-eratic administrations, and that the party which has opposed them is the

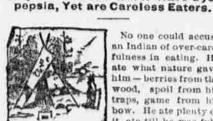

one which has generally met with national defeat.

PETRIFIED MAN FOUND. The Supposed Remains of Bruce Younger Discovered in a Cave.

DENISON, Tex., March 6 .- [Special relegram to THE BEE. |- The whole of northern Texas is agitated over the discovery of a petrification in the Guadaoupe mountains. The discovery is now in a glass case at Gainesville and it will be brought here for identification as the remains of the famous outlaw, Bruce Younger, by a sister residing here. Last November a man named William Air heart went with three associates to seek ore and fortune in the mountainous region of southern New Mexico, just north of the Texas line. In the co of their explorations the party came upon a cave in what is known as "dark canon," a place destitute of highways, apparently unknown o anyone excepting those residing in the immediate vicinity. In the was found a human body. Thirteen days were consumed by the men, who worked incessantly, before the body could be taken to the light. While the fossil lay in the room at Gainesville, Mrs. John T. Biffle, the wife of a reputable stockman of that place, had occasion

In connection with these facts she related the following "About fifteen years ago, when the officers were hot after the James and Younger boys, Bruce Younger left his home in Missouri and took refuge in a cave in the Guadaloupe mountains in southern New Mexico. EUFALA, I. T., March 6.—[Special Telegram to THE BEE.]—Last Monday morning Deputy Marshal Rogers and posse surrounded a log house on Sand creek in the Osage nation, in which were eleven outlaws. The officers and outlaws opened fire on each other and kept it up for some time. During the fusilinde six of the men ran from the house and got away. Finally a woman came out and told the officers if they would cease ficing the remaining five would surrender. The officers took charge of the men, one of whom was a member of the gang that held up the train at Wharton last November. After securing their prisoners a portion of the men set out after the men who had escaped and to-ward night they secured one after a running fight, in which he was shot in the body and had one arm shot off.

The special committee of the council composed of Steel, Parker and Howell, appointed for the purpose of investigating alleged under-hand work in the proposed discharge of one of the meet inspectors of the health department, met yesterday afternoon behind closed doors. After a short session they requested the presence of Dr. Somers and Councilman McLearse of the Board of Health, but those two gentlemen refused to appear before the committee. They then adjourned to Dr. Somers' office, where the board was in ses-

They were respectfully received, but it was evident that the members of the committee did not find much sympathy there. They entered into a discussion of the subject and the fact soon cropped out that it was a democratic scheme to save the political head of Inspector Becson. Bad feeling has existed between him and Inspector several months. It had its origin in Berson signing himself chief inspector when the ordinance makes no such provision. Since the talk originated of removing one of the meat inspectors and applying that salary to the employment of additional sanitary in-spectors Mr. Beeson has made some ugly charges against Mr. Frank, and it did not. take long to establish the fact that the com-mittee was investigating that gentleman, and hoped by the use of what they ascer

Mr. Beeson was called in to tell what he knew. He cited a half dozen places where he said Mr. Frank had horrowed money from butchers whose meat he was compelled to inspect. He also charged that Frank had visited a meat firm and that when they refused him a loan of \$5 be remarked that he had just condemned 200 bushels of polatoes the adjoining house and he thought that there was something in the shop of the man he was addressing that needed inspection. Mr. Beeson said that when he visited these different places they inquired after Frank, and in this manner he learned of the in-

Then Mr. Frank was brought in. He admitted borrowing a small sum from two of the parties named. He said they were old friends and it was due to that fact that they riends and it was due to that fact that they accommodated him. Both conducted meat markets, and in one of the places he had condemned some meat after the loan had been made. He denied that his official actions would be influenced because of the loans secured from those two parties. He entered a denial to the other charges, and said that the whole thing originated in the malice borne him by Mr. Reeson. malice borne him by Mr. Beeson.

Then the committee and the members of the board talked the matter over, and the latter wanted the former to make some recommendation. The board was not pre-

pared to act just then and the committee withdrew. Afterwards the board did act, however, and it was voted to recommend to the council that the services of Mr. Beeson be dispensed with. Mayor Bemis, Dr. Somers and Mr. McLearie voted for the adoption of the resolution and Chief Seavey and Mr. Howell against it. The two latter wanted both Mr. Beeson and Mr. Frank dis-charged and a new man employed. But they were in the minority and the fight is now transferred to the council. The board selected four sanitary inspectors

to commence work whenever Dr. Somers deems it necessary. They are J. C. Green, W. E. Green, C. J. Westerdahlm and A. G. F. Hartman. Before the selections were made twenty-four applicants appeared before the members and were subjected to questioning.

The contract for removing dead animals was again awarded to Newton Niday. Two other bids were received, and were a little lower than the successful one, but the members expressed themselves as being so well satisfied with Mr. Niday's work that they did not propose to give it to an untried man,

Ithough it does cost a little : The members of the sanitary force were ordered uniformed, and the commissioner was instructed to purchase stars for them.
